**Report**

DT-25-08-2023

GDC Gurez organised a very insightful session on Breast Cancer Awareness on 25-08-2023. Dr shabnam was the speaker for the event & she explained various types of cancers that effect women or breast cancer & cervical cancer. She told that breast cancer is one of the leading causes of cancer deaths in women & there has been continuous rise in case of breast cancer in last decade. She discussed about various causes, preventive measures & self examination of body parts to avoid the incidence of disease. She also mentioned that there is a need for regular checkups to detect the early signs of this deadly disease.

The session was quite informative & engaging far the female students as they received lot of awareness about this usually ignored issue. The programme was concluded with a vote of thanks by Mr Mubashir Ahmed.
